

Year 2 Summer 1 2026

English - This half term the children will be immersing in a book called Little Red Riding Hood. Within this unit they will learn the narrative and rewrite the story changing some key details.

Maths - We will be using the Power Maths scheme of work and we will continue to teach them multiplication and division, then moving on to fractions and then solving problems using money.

Science - The children will be looking at what makes seeds, bulbs and beans grow. They will look at the art of germination and how certain, specific factors affect the growing rate of different things. During this unit, the children will conduct practical experiments to work on their 'working scientifically' skills.

Design & Technology - This term the children will be able to name the main food groups and identify foods that belong to each group. The children will also be learning about the importance of a balanced diet and why it is important to have a balanced and varied diet.

They will be exploring the taste, feel and smell of a given food. They will then think of different wrap ideas, considering flavour combinations. The children will then construct a wrap that meets the design brief and their plan.

RE - Who is a Muslim and how do they live? The children will be learning about the Islamic faith and things that are important to them.

Geography - In our geography unit, children will be learning about different aspects of food production in the South West. It will start with looking at dairy farms and what they produce. This will move onto looking at the product range we get from dairy, before moving onto different elements of food production. Children will then learn about where our fruit and veg comes from, before finally looking at the positives and negatives associated with sugar in our diet.

PSHE - The children will be learning about parts of the body, using the correct names for private parts for both genders. They will gain an understanding of safe and unsafe touches including learning that they can choose what happens to their own body. We will also be learning about road safety and safety around medicines.

Computing - We will be focusing on making music, electronically, using Chrome Lab. The children will experiment with tone, tempo, rhythm and different instruments to create their own digital masterpiece.

PE - The children will have PE every Monday & Friday with a focus on dance and team building games.

Music - Children are introduced to the instruments of the orchestra and practice identifying these within a piece of music. They learn how different characters can be represented by timbre, how emotions can be represented by pitch and how changes in tempo can convey action.

Read Write Inc - The children will continue to have daily RWi lessons in school. The children will take home an AR/colour banded book as well as RWi book bag book to support their reading from home.
